TROPICAL CYCLONE BULLETIN NR. 4
Tropical Depression ADA

Issued at 5:00 AM, 15 January 2026
Valid for broadcast until the next bulletin at 11:00 AM today.

ADA SLIGHTLY INTENSIFIES WHILE MOVING OVER THE PHILIPPINE SEA EAST OF MINDANAO.

Location of Center (4:00 AM)

The center of Tropical Depression ADA was estimated based on all available data at **385 km East Northeast of Hinatuan, Surigao del Sur or 465 km East of Surigao City, Surigao del Norte (9.4°N, 129.7°E).**

Intensity

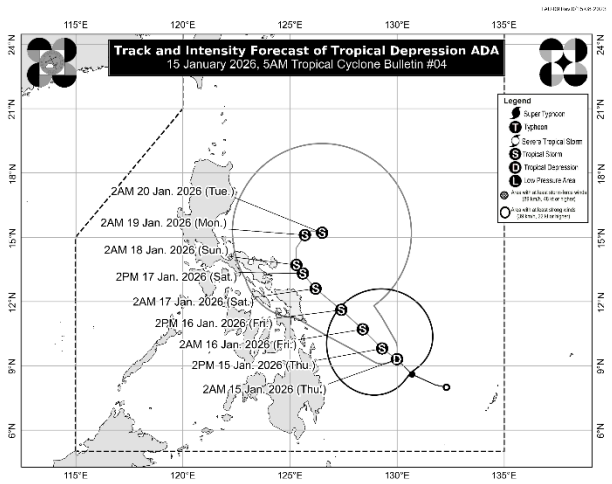
Maximum sustained winds of **55 km/h** near the center, gustiness of up to **70 km/h**, and central pressure of **1000 hPa**

Present Movement

Northwestward at 20 km/h

Extent of Tropical Cyclone Winds

Strong winds extend outwards up to **400 km** from the center



TRACK AND INTENSITY FORECAST

Date and Time	Center Position			Intensity		Movement dir. and speed (km/h)
	Lat. (°N)	Lon. (°E)	Location	MSW (km/h)	Cat.	
12-Hour Forecast 2:00 PM 15 January 2026	9.8	129.3	420 km East of Surigao City, Surigao del Norte	65	TS	NW 10

Tropical Depression ADA
Issued at 5:00 AM, 15 January 2026
Valid for broadcast until the next bulletin at 11:00 AM today.

TROPICAL CYCLONE WIND SIGNALS (TCWS) IN EFFECT			
TCWS No.	**Luzon**	**Visayas**	**Mindanao**
1 Wind threat: **Strong winds**	**Sorsogon, and the southeastern portion of Albay** (Rapu-Rapu, Manito, Legazpi City)	**Northern Samar, Samar, Eastern Samar, the eastern portion of Biliran** (Maripipi, Kawayan, Culaba, Caibiran, Cabucgayan)**, the eastern portion of Leyte** (Carigara, Barugo, San Miguel, Babatngon, Tacloban City, Tunga, Jaro, Alangalang, Santa Fe, Palo, Dagami, Pastrana, Tanauan, Tabontabon, Julita, Dulag, Tolosa, La Paz, Mayorga, Macarthur, Javier, Abuyog, Mahaplag), **and the eastern portion of Southern Leyte** (Silago, Sogod, Libagon, Saint Bernard, Hinunangan, Hinundayan, Anahawan, San Juan, Liloan, San Ricardo, San Francisco, Pintuyan)	**Dinagat Islands, Surigao del Norte, and Surigao del Sur**
	Warning lead time: **36 hours** Range of wind speeds: **39 to 61 km/h (Beaufort 6 to 7)** Potential impacts of winds: **Minimal to minor threat to life and property**		

OTHER HAZARDS AFFECTING LAND AREAS

Heavy Rainfall Outlook

Refer to Weather Advisory No. 4 issued at 5:00 AM today for the heavy rainfall outlook due to Tropical Cyclone ADA.

Severe Winds

The wind signals warn the public of the general wind threat over an area due to the tropical cyclone. Local winds may be slightly stronger/enhanced in coastal and upland/mountainous areas exposed to winds. Winds are less strong in areas sheltered from the prevailing wind direction.

- **Minimal to minor impacts** from strong winds are possible within any of the areas under Wind Signal No. 1.

The highest Wind Signal that may be hoisted throughout the passage of ADA is Wind Signal No. 2.

The Northeast Monsoon and the periphery of ADA will also bring strong to gale-force gusts over the following areas (especially in coastal and upland areas exposed to winds):

- **Today:** Batanes, Babuyan Islands, Ilocos Norte, northern and eastern mainland Cagayan, eastern Isabela, Aurora, most of CALABARZON, Lubang Islands, Marinduque, Romblon, Oriental Mindoro, Cuyo Islands, Bicol Region, and Central Visayas
- **Tomorrow (16 January):** Batanes, Babuyan Islands, Ilocos Norte, northern and eastern mainland Cagayan, eastern Isabela, Aurora, most of CALABARZON, Oriental Mindoro, Occidental Mindoro, Romblon, Marinduque, Bicol Region, most of Visayas, and most of Caraga.
- **Saturday (17 January):** Batanes, Babuyan Islands, Ilocos Norte, Abra, northern and eastern mainland Cagayan, eastern Isabela, Aurora, most of CALABARZON, Oriental Mindoro, Romblon, Marinduque, Bicol Region, most of Visayas, and most of Caraga.

TROPICAL CYCLONE BULLETIN NR. 4
Tropical Depression ADA
Issued at 5:00 AM, 15 January 2026
Valid for broadcast until the next bulletin at 11:00 AM today.

HAZARDS AFFECTING COASTAL WATERS

24-Hour Sea Condition Outlook

Up to rough seas over the following coastal waters:

- **Up to 4.0 m:** The northern and eastern seaboards of Catanduanes, Northern Samar, and Siargao-Bucas Grande Islands; the eastern seaboards of Eastern Samar, and Dinagat Islands.
- **Up to 3.5 m:** The seaboards of Isabela, Aurora, northern mainland Quezon, and Camarines Norte; the northern seaboard of Camarines Sur; the eastern seaboards of Albay, Sorsogon, and Surigao del Sur.
- **Up to 3.0 m:** The seaboards of Batanes, Cagayan, and Ilocos Norte; the eastern seaboard of Davao Oriental
- **Mariners of small seacrafts, including all types of motorbancas, are advised not to venture out to sea under these conditions, especially if inexperienced or operating ill-equipped vessels.**

Up to moderate seas over the following coastal waters:

- **Up to 2.5 m:** The eastern seaboard of Camarines Sur; the remaining seaboard of Catanduanes.
- **Up to 2.0 m:** The eastern seaboard of Davao Occidental; the remaining seaboards of Ilocos Region.
  Mariners of motorbancas and similarly sized vessels are advised to take precautionary measures while venturing out to sea and, if possible, avoid navigation under these conditions.

Elsewhere, coastal waters will have wave heights of less than 2.0 m

TRACK AND INTENSITY OUTLOOK

- **It must be emphasized that heavy rainfall and severe winds may still be experienced in localities outside the landfall point and the forecast confidence cone. Refer to "Other Hazards affecting Land Areas" for more details. Furthermore, the track may still shift within the limit of the forecast confidence cone.**
- ADA will generally move northwestward today through Sunday (18 January) before turning north northeastward by Monday (19 January). On the forecast track, ADA may pass close to Eastern Samar and Northern Samar on Friday (16 January) or Saturday (17 January) early morning before heading towards east of Catanduanes, where it is likely to make a close approach to the area on Sunday morning. A further westward shift in the forecast track may result in a possible landfall over Eastern Visayas and Bicol Region.
- ADA is forecast to reach tropical storm category today and will continue to gradually intensify while moving over the Philippine Sea.

Considering these developments, the public and disaster risk reduction and management offices concerned are advised to take all necessary measures to protect life and property. Persons living in areas identified to be highly or very highly susceptible to these hazards are advised to follow evacuation and other instructions from local officials. **For heavy rainfall warnings, thunderstorm/rainfall advisories, and other severe weather information specific to your area, please monitor products issued by your local PAGASA Regional Services Division.**

The next tropical cyclone bulletin will be issued at 11:00 AM today.
